## WORK EXPERIENCE

### Full Stack Developer

#### KEN-Techno

01/2020 - 03/2022

Addis Ababa, Ethiopia

##### Achievements/Projects

- Developed and maintained the Monarch ParkView Hotel website, a luxury hotel platform featuring seamless online booking functionality and other guest services.
- Contributed to the creation of Feshta, an event management and ticketing software catering to numerous event organizing companies, facilitating easy access to live events and enhancing the overall user experience using PHP/Laravel.
- Designed and implemented the LaserTech Design website, focusing on user-friendliness and attractiveness while incorporating multilingual capabilities to cater to a diverse audience.
- Spearheaded the development of the Abyssinia Restaurant website, a visually appealing platform for a Swiss restaurant, complete with online table reservation and ordering functionalities to enhance customer convenience.

### Azure Cloud Specialist

#### Nedamco Capital

06/2022 - 03/2024

Addis Ababa, Ethiopia

Developing and implementing a cloud strategy, Migrating workload to Azure, Assessing, building, and implementing reliable Azure solutions

##### Achievements/Projects

- Developed a Cloud-based Pharmacy Management System, incorporating functionalities such as medicine, customer, and billing management, ensuring efficient operations for pharmacy businesses using C#.
- Created a Cloud-based Inventory Management System, overseeing features including sales and purchases management, customer management, stock tracking, and product categorization, optimizing inventory control processes using PHP/Laravel.
- Developed a mini Student Management System with functionalities such as course, batch, and enrollment management, facilitating streamlined administration and organization of student data, courses, and enrollments using PHP/Laravel.
- I have earned several certifications, including Azure Security Engineer Associate, Azure Data Engineer Associate, DevOps Engineer Expert and others that validate my expertise in cloud computing and data management on the Microsoft Azure platform.
